

CEREALS

# NipsIt™ SUITE

**INNOVATIVE, ALL-IN-ONE CEREAL SEED TREATMENT  
THAT'S ENGINEERED TO PROTECT™ PLANT GROWTH  
AND YIELD FROM THE MOST DAMAGING DISEASE  
AND INSECT PESTS**

## **PEST CONTROL CHALLENGE**

Fusarium, pythium and wireworms cause significant losses every year in untreated cereal crops. Add in the damages from many other common pests, and your crops could face severely reduced plant stands and limited yield potential.

## **NUFARM SOLUTION**

NipsIt™ SUITE delivers complete cereal seed and seedling protection. Its all-in-one fungicide and insecticide formulation promotes increased plant stands and enhanced plant growth for consistent yields.

**Nufarm**

**Grow a better tomorrow.**

## REGISTERED CROPS

- Wheat (spring, winter, durum)

## PESTS CONTROLLED

### NIPSIT SUITE (ALONE)

- Common bunt (*Tilletia laevis*)
- Common root rot (*Cochliobolus sativus*)
- Fusarium (*Fusarium* spp.)
- Loose smut (*Ustilago tritici*)
- Pythium (*Pythium* spp.)
- Rhizoctonia (*Rhizoctonia solani*)
- Wireworm (suppression)

### NIPSIT SUITE + NIPSIT INSIDE®

- For enhanced protection from wireworms and aphids

## BENEFITS

- **Advanced Lock Tight™ Technology** makes it easy to apply, increases product retention and enhances seed flow consistency
- **Superior formulation** that's easy to apply and increases product retention
- **Best for key pests** for long-lasting and strong protection against wireworm, seed and root rots caused by fusarium, rhizoctonia, cochliobolus and pythium, plus seed-borne diseases including smuts and bunts

## PLUS

- Novel chemistries with two active ingredients for cereal seed treatment
- Premium performance compared to leading all-in-one cereal seed treatments
- Delivers better performance than fungicide alone, or other mix options
- Independent research demonstrates an increase in crop yield by more than 3 bu./ac. compared to industry standards\*
- Compatible with Nipsit INSIDE for increased wireworm and aphid protection

\*Northern Seed LLC, Scobey, MT (2013)

## NIPSIT SUITE

### ACTIVE INGREDIENTS

- > Group 4 insecticide (clothianidin)
- > Group 3 fungicide (metconazole)
- > Group 4 fungicide (metalaxyl)

### APPLICATION

- > 326 mL/100 kg of seed

### TREATMENT AREA

- > One case treats 225 bushels of wheat

### NOTES

- > Water-based formulation allows the treater to adjust application volume with the addition of water

### PCP #

- > 31357
