

# Bifecta<sup>TM</sup>

**FOR STRONG CONTROL  
OF THE TOUGHEST  
RESISTANT BROADLEAF  
WEEDS IN HERBICIDE-  
TOLERANT SOYBEANS**

## **WEED CONTROL CHALLENGE**

When it comes to managing glyphosate-resistant weeds, good isn't good enough anymore. Soybean growers need exceptional weed control right from the start for herbicide-tolerant and Roundup Ready® crops. And that control needs to continue all season long on the toughest resistant weeds including fleabane, pigweed and ragweed.

## **NUFARM SOLUTION**

Bifecta<sup>TM</sup> delivers exceptional broad-spectrum control of the toughest resistant weeds in herbicide-tolerant soybeans in Eastern Canada. Two active ingredients (Group 5 and 14) work together to provide strong residual control and sound resistance management. This proven combination controls the toughest resistant broadleaf weeds with bonus activity on hard-to-control annual grasses.

## REGISTERED CROP

- Soybeans

## WEEDS CONTROLLED

### Now registered for control of Common waterhemp and Palmer amaranth

- Canada fleabane (including glyphosate resistant)
- Common chickweed
- Common ragweed (including glyphosate resistant)
- Common waterhemp
- Green and yellow foxtail (suppression)
- Green smartweed
- Lamb's-quarters
- Nightshades
- Palmer amaranth
- Pigweeds
- Seeding dandelion
- Velvetleaf
- Wild mustard

## BENEFITS

- **Strong glyphosate-resistant** fleabane burndown and control when tank mixed with BlackHawk® herbicide
- **Enhanced burndown** and residual activity for up to five weeks
- **Superior resistance management** with two active ingredients

### PLUS

- Flexible pre-plant or post-plant pre-emergent application timings
- Controls many weeds showing resistance to Group 2 and Group 5 herbicides
- Combines newer chemistry (flumioxazin) with proven active (metribuzin)
- No surfactant needed
- Tank mixable with most burndown products
- Easy-to-use co-pack

## BIFECTA

### ACTIVE INGREDIENTS

- > Group 5 (metribuzin)
- > Group 14 (flumioxazin)

### APPLICATION TIMING

- > Pre-plant
- > Pre-emergent

### TREATMENT AREA

- > One case treats 40 acres

### TANK-MIX ORDER

- > Valtera™
- > TriCor®

### TANK-MIX RATE

- > Valtera 140 g/ha
- > Tricor 550 g/ha

### PCP #S

- > 30661
- > 29230

## GROWER OFFER

PURCHASE BY JUNE 15th

**\$80 OFF**  
PER CASE

Nufarm.ca/special-offers

Sign up online at [Nufarm.ca/special-offers](http://Nufarm.ca/special-offers)

to receive one \$80 Visa gift card for every jug of Bifecta you buy with a minimum purchase of 40 acres of Roundup Ready 2 Yield® or Roundup Ready Xtend® soybeans now thru June 15, 2017.
