

# Curtail M

A proven in-crop herbicide with unsurpassed control of Canada thistle in cereals, flax and canary seed.

## Registered crops

- Barley
- Canary seed
- Flax
- Oats
- Spring wheat (including durum)
- Timothy

## Weeds controlled

- Buckwheat (wild, tartary)
- Canada thistle
- Dandelion (top growth)
- Lamb's-quarters
- Redroot pigweed
- Scentless chamomile
- Shepherd's-purse
- Sow thistle (annual, perennial)
- Stinkweed
- Volunteer canola
- Volunteer sunflower
- Wild mustard

## Benefits

- **GETS TO THE ROOT OF THE PROBLEM** with effective systemic activity of two active ingredients that get down to the roots
- **COMPATIBLE** with most graminicides to provide excellent weed control including tank-mixes with Signal®, Axial® Xtreme, Simplicity™ and many others
- **BROAD-SPECTRUM** activity on many hard-to-control broadleaf weeds including pigweed and volunteer canola
- **BEST OPTION** for flax crops with hard-to-kill weeds
- The best above and below ground systemic thistle control
- Makes harvest easier
- Delivers in-crop yield protection

## Supported grass tank-mix partners

### WHEAT AND BARLEY

- Assert
- Axial and Axial Xtreme
- Broadband\*\*
- Cordon/Puma
- Nufarm Tralkoxydim

### WHEAT ONLY

- Altitude FX2 (Clearfield® wheat)
- Signal
- Everest\*
- Simplicity\*
- Traxos
- Varro\*\*

### FLAX

- Poast
- Select/Centurion
- Statue

\*not including durum

\*\*600 mL/ac. rate of Curtail M
