

NEW LABEL NOW INCLUDES BOX TREE MOTH

# DiPel® 2X DF

BIOLOGICAL INSECTICIDE

— NEW LABEL UPDATE —

## YOUR PLAN FOR INVASIVE BOX TREE MOTH

DiPel® 2X DF, a leading biological insecticide, is now labelled for box tree moth control on boxwood ornamentals. With a unique mode of action, DiPel protects valuable greenhouse, nursery crops, and landscape plants from Lepidoptera pests while providing growers with a high potency resistance management tool. Plus, DiPel is approved for organic production and safe to beneficial insects.

### KEY BENEFITS

- **NEW** label now includes box tree moth on boxwood ornamentals
- Most potent Bt insecticide on the market and unique mode of action making it an excellent tool for managing resistance
- Immediately stops insects from feeding — death occurs within 1–3 days
- Dry flowable formulation is convenient, easy to handle, and highly tank mixable
- Not harmful to bees or beneficial insects making it a great tool for spring feeding caterpillars
- Zero pre-harvest interval (PHI) and no re-entry interval (REI), safe for humans

<b>PCP NO.</b>	26508	<b>IRAC NO.</b>	11
