

Infosafe No™ 3NUPN	Issue Date : January 2018	APPROVED by NUFARMNZ
--------------------	---------------------------	----------------------

 Product Name **XENTARI® WG**

1. Identification

GHS Product Identifier	XENTARI® WG
Product Code	03927
Product Type	Biological insecticide
Company Name	Nufarm NZ
Address	6 Manu Street, Otahuhu Auckland 2024 New Zealand
Telephone/Fax Number	Tel: 0-9-270 4150 Fax: 0-9-270 4159
Emergency phone number	0800 651 911
Recommended use of the chemical and restrictions on use	A biological insecticide for the control of caterpillars on brassicas.
Other Information	This SDS describes, to the best of our knowledge, the properties of the concentrated product. The physical properties and some of the assessments do not apply to the properties of the product once it has been diluted for application. Acute health effects of the diluted product are likely to be much less severe.

2. Hazard Identification

Other Information	9.1D aquatic toxicant, ECOTOXIC Has biocidal action against Lepidoptera. Do not apply this substance in a way that adversely affects native mosquitoes of a species found only in the region of application.
--------------------------	--

3. Composition/information on ingredients

Chemical Characterization	Solid		
Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	Ingredients determined to be non-hazardous	-	Balance
	Bacillus thuringiensis subsp aizawai (Abbott strain 1857)	68038-71-1	35,000 Diamondback Moth Units/mg

4. First-aid measures

First Aid Measures	For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. Begin artificial respiration if the victim is not breathing. Use mouth-to-nose rather than mouth-to-mouth. Obtain medical attention.
Inhalation	Remove patient to fresh air. Lay down and keep warm and rested. If breathing is shallow or has stopped ensure airway is clear and apply resuscitation. Seek medical assistance immediately.
Ingestion	Never give anything by mouth to an unconscious person. If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre (0800 764 766). Seek medical assistance immediately.
Skin	Immediately flush body and clothes with large amounts of water. Remove contaminated clothing and footwear. Wash affected areas with soap and water. If a large area is affected seek medical assistance.
Eye contact	Flush eyes with plenty of water for 15 minutes holding eyelids open if necessary. Seek medical assistance. Remove contact lenses, if present and easy to do.
First Aid Facilities	Facilities storing or utilizing this material should be equipped with an eyewash facility and safety shower.
Advice to Doctor	Treat symptomatically.

5. Fire-fighting measures

Infosafe No™ 3NUPN	Issue Date : January 2018	APPROVED by NUFARMNZ
--------------------	---------------------------	----------------------

 Product Name **XENTARI® WG**

Suitable extinguishing media	Choose extinguishing media to suit the burning material. Water fog, foam, carbon dioxide or dry chemical.
Hazards from Combustion Products	Thermal decomposition may evolve toxic and irritating vapours.
Special Protective Equipment for fire fighters	Full protective clothing and self-contained breathing apparatus.
Specific Methods	Keep up wind. Do not allow washings to reach sewage or effluent systems.
Other Information	Location Certificate: Not applicable Hazardous Atmosphere Zone: Not applicable Number of Fire Extinguishers: Not applicable

6. Accidental release measures

Spills & Disposal	Wear protective clothing. Clear area of unprotected personnel. Sweep up solids without generating dust (use water to dampen). Contain and absorb liquid spills with inert material and place in waste containers. If spill does enter waterways contact the local authority. Collect in an appropriate sealable container for disposal in an approved landfill.
Personal Protection	For appropriate personal protective equipment (PPE), refer Section 8.
Environmental Precautions	Prevent from entering drains, waterways or sewers.

7. Handling and storage

Precautions for Safe Handling	Keep out of reach of children. Avoid skin and eye contact and inhalation of spray mist or dust. APPROVED HANDLER: Not applicable TRACKING: Is not required RECORD KEEPING: Not applicable Do not apply XENTARI WG onto or into water.
Conditions for safe storage, including any incompatibilities	High temperatures will damage the bacterial spores contained in XENTARI WG . Store in original container tightly closed and in a locked, dry, cool area away from foodstuffs. Storage must be in accordance with NZS 8409 Management of Agrichemicals. Stores containing 10,000kg of XENTARI WG are subject to signage, and more than 10,000kg require emergency response plans. Store below 25°C. Avoid exposure to direct sunlight and ignition sources.
Other Information	Always read the label and any attached leaflet before use. Aggregate Storage Volume Thresholds: When stored with substances of the same hazard classification the aggregate quantity must be considered. For full details refer to the current NZS8409 Management of Agrichemicals and the HSNO Regulations.

8. Exposure controls/personal protection

Occupational exposure limit values	No exposure limits (WES, TEL or EEL's) have been specifically assigned for this product. As with all dusts the WES for particulates not otherwise classified = 10mg/m ³ .
Appropriate engineering controls	Handle in well ventilated areas, generally natural ventilation is adequate.
Personal Protective Equipment	When opening the container, preparing spray and using the prepared spray wear safety goggles, impervious gloves, cotton overalls buttoned to the neck and wrist, and boots. If risk of inhalation of dust or spray mist exists, wear combined organic vapour/particulate respirator. If using a respirator ensure that the cartridges are correct for the potential air contamination and are in good working order.
Hygiene Measures	Do not eat, drink or smoke while using. Remove protective clothing and wash hands and face thoroughly before meals and after work. Wash protective clothing daily after work.

9. Physical and chemical properties

Infosafe No™ 3NUPN	Issue Date : January 2018	APPROVED by NUFARMNZ
--------------------	---------------------------	----------------------

Product Name **XENTARI® WG**

Form	Solid
Appearance	Light Brown granules
Odour	Faint organic/malt odour
Melting Point	Not applicable
Boiling Point	Not applicable
Solubility in Water	Suspends readily in water
pH	4.1 (10% slurry @ 24°C)
Density	0.43g/mL
Flash Point	Not applicable.
Other Information	(WG) Water Dispersible Granule

10. Stability and reactivity

Chemical Stability	Stable under recommended storage and handling conditions.
Conditions to Avoid	Activity can be impaired unless protected from high temperatures at all times.
Incompatible Materials	High temperatures. Alkaline products. Oxidisers and reducing agents.
Hazardous Decomposition Products	Thermal decomposition may evolve toxic and irritant vapours.
Hazardous Polymerization	Hazardous polymerisation will not occur.

11. Toxicological Information

Acute Toxicity - Oral	LD50 (rat) >5,000mg/kg for a similar formulation
Acute Toxicity - Dermal	LD50 (rabbits) >2,000mg/kg for a similar formulation
Inhalation	In a test with an almost identical formulation, the test facility was unable to generate a sufficiently high enough concentration of respirable particles due to the non-dusty characteristics of the product.
Skin	Transient, slight or mild irritation noted in a dermal irritation study with a similar formulation.
Eye	Transient, mild to moderate irritation was observed in test animals in a study with a similar formulation. Classified as slightly to moderately irritating.
Skin Sensitisation	In a study with a similar product the reaction to the challenge dose was slight, but because it was greater than that of the control animals, it was concluded that the potential to cause skin sensitization exists. Not expected to have corrosive properties.
Carcinogenicity	None of the components are classified as carcinogens.
Reproductive Toxicity	Teratological and Reproduction information - no adverse effects known.

12. Ecological information

Environmental Fate	For <i>Bacillus thuringiensis</i> : In clay loam of low nutrient status (pH 7.3, pF2, 25°C) insecticidal activity declined rapidly in 20d due to deterioration of the crystals; at pF3, it declined slowly for 500d; at higher nutrient status, there was a brief 10-fold increase of inoculum applied to soil. As a natural part of the ecosystem, it decays to complex and non-toxic organic compounds.
Basis for Assessment	Data below is for the active ingredient unless otherwise stated.
Acute Toxicity - Fish	LC50 (95h) rainbow trout >1,000mg/L for <i>Bacillus thuringiensis</i>
Acute Toxicity - Daphnia	EC50 (95h) <i>Daphnia magna</i> >74mg/L for <i>Bacillus thuringiensis</i>
Acute Toxicity - Other Organisms	LC50 (5d) bobwhite quail: >1,714mg/kg/day for <i>Bacillus thuringiensis</i> Earthworm - 14d-LC50: no data, <i>Bacillus thuringiensis</i> is naturally present in the soil XENTARI WG is toxic only to caterpillars of certain lepidopterous insects (moths and butterflies). It does not harm beneficial insects and mite

Infosafe No™ 3NUPN	Issue Date : January 2018	APPROVED by NUFARMNZ

Product Name **XENTARI® WG**

predators, and leaves no harmful crop residues.

13. Disposal considerations

Product Disposal	Dispose of product only by using according to the label, or at an approved landfill.
Container Disposal	<p>PLASTIC: Triple rinse empty container and add rinsate to spray tank. Recycle empty container. Otherwise crush and bury in a suitable landfill.</p> <p>PAPER: Ensure container is completely empty. Do not use container for any other purpose. Burn in an appropriate incinerator if circumstances, such as wind direction, permit. Otherwise crush and bury in an appropriate landfill.</p>

14. Transport information

Transport Information	It is good practice not to transport agricultural chemical products with food, food related materials and animal feedstuffs.
Storage and Transport	Not classified as Dangerous Goods for transport in New Zealand.

15. Regulatory information

National and or International Regulatory Information	Approved pursuant to the HSNO Act 1996, Approval Code HSR000733 See www.epa.govt.nz for approval controls.
Hazard Rating Systems	Registered pursuant to the ACVM Act 1997, No. P4869 See www.foodsafety.govt.nz for registration conditions NFPA/HMIS: 1-1-0

16. Other Information

Date of preparation or last revision of SDS	December 2012
Contact Person/Point	<p>IN AN EMERGENCY, DIAL 111 - FIRE OR POLICE 24Hr Tollfree Emergency No: 0800 651 911 24Hr Emergency No: National Poisons Centre Phone: 0800 764 766</p>
Revisions Highlighted	<p>5 yearly review carried out. Various changes and updates made to document.</p> <p>...End Of MSDS...</p>
