

# Chlorpyrifos

## REASSESSMENT OUTCOMES

The EPA have issued a Notice of Direction prohibiting the use and requiring disposal of Chlorpyrifos-containing substances from specified dates as outlined:

© suSCon is a registered trademark of Nufarm Technologies USA Pty Ltd

These are the implications for Nufarm products:

### Nufarm Chlorpyrifos 500EC (HSR000224)

- The approval to import and manufacture this substance is revoked from 8 January 2026.
- From **8 July 2026** the use of the substance is prohibited and the substance must be disposed of at the owners expense.

### SuSCon Green (HSR000163)

- The approval to import and manufacture this substance is revoked from 8 January 2027.
- From **8 July 2027** the use of the substance is prohibited and the substance must be disposed of at the owners expense.

There is an immediate prohibition with effect from 8 July 2025 on the use of both the above products in publicly accessible spaces (i.e. parks, playgrounds, reserves, sports fields, berms, roadside vegetation). All products which are sold after 8 July 2025 must be accompanied by additional documentation to explain this ban.
