Contents: 10L, 20L, 110L, 1000L

DIRECTIONS FOR USE

SITUATION	RATE	CRITICAL COMMENTS
Achieve® WG herbicide	0.75-1L/100L	The normal rate is 750mL/100L spray solution. Increase the rate to 1L/100L under drying conditions. Always use 1L/100L for aerial application.
Claw® Herbicide, Claw® 350SL Herbicide	0.5-1L/100L	Refer to label for specific use recommendations.
Amicide® Advance 700, Amine 625, Agritone® 750, MCPA 500, Cobber®475 and other amine formulations of phenoxy herbicides.	1L/100L	The use of Supercharge Elite may assist in control of harder to wet and harder to kill weeds - such as Lippia, wild radish, variegated thistle and volunteer canola where listed as controlled on the relevant phenoxy herbicide product label. Refer to product label for specific use recommendations and contraindications. Avoid application to stressed plants.
Exert®520 Herbicide and other formulations of haloxyfop herbicides	0.5L/100L	It is essential to add an adjuvant to Exert 520. Best results will be achieved with Supercharge Elite at 0.5L/100L of spray solution. Use of an oil is not always recommended. Refer to label for specific situation recommendations.
Factor® WG Herbicide	1L/100L	Always add Supercharge Elite at 1L/100L of spray solution. For aerial application apply Supercharge Elite at 1L/ha.
Kyte® 700WGHerbicide, and other imazethapyr herbicides	0.5L/100L	For post emergence use in peanuts and soybeans only.
Nail® 240EC Herbicide, Nail® 600EC Herbicide	0.5-1L/100L	Addition of Supercharge Elite at 0.5% may be beneficial when applying Nail 240EC, Nail 600EC with Gladiator or a glyphosate herbicide or with a 2,4-D herbicide. Refer to label for specific stand alone mixes with Nail 240EC Herbicide or Nail 600EC Herbicide.
Havoc® herbicides and herbicides containing clethodim and other products containing dim herbicides in general	1L/100L	Supercharge Elite can be used with Havoc Herbicide and other products containing dim herbicides for control of grass weeds where listed as susceptible on the relevant product label.
Sempra® Herbicide	1L/100L	Refer to label for specific use recommendations
Intercept®Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Atradex® and other herbicides (liquid and granular) containing atrazine in general	0.5-1L/100L	For post emergence use in TT canola only.
	5.5L/ha	For post emergence use where grasses are present in maize and sweet corn only.
Sentry® Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Matter® 240EC Selective herbicide and other herbicides containing clodinafop	0.5L/100L	Add Supercharge Elite at 0.5L/100L unless applying in low water volumes when a minimum Supercharge Elite volume of 250mL/ha must be applied.
Comet 400® Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Spark® Herbicide	1L/100L	Add Supercharge Elite for Post-emergence application for the control of weeds as listed on the label.
Conqueror® Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Trooper® 75-D Selective Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Trooper® 242-D Selective Herbicide	0.5L/100L	Refer to label for specific use recommendations.
Archer® Herbicide	0.5L/100L	Refer to label for specific use recommendations.

AID IN MANAGEMENT OF SPRAY DROPLET QUALITY AND SPRAY DROPLET SURVIVAL	0.5-1L/100L	The additional of Supercharge Elite has the potential to increase the droplet VMD and reduce the percentage of fine droplets produced by a range of common flat fan conventional [except Turbo TeeJet (TT)], air induction and CP nozzles. The addition of Supercharge Elite has the potential to increase survival of spray droplets by reducing evaporation thus preventing formation of solid particles of active constituent.
---	-------------	---

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Supercharge Elite is a spray adjuvant designed for use with Achieve WG Herbicide, but is also recommended to be used with Factor WG Herbicide, Nail Herbicides and other herbicides - refer to the respective product labels for directions for use.

MIXING

Add the recommended rate of Supercharge Elite to the spray tank after the herbicide. Ensure Achieve WG and Factor WG have been fully dispersed before adding Supercharge Elite – refer to the respective product labels for full directions. Where a suction (filling) probe or hopper is used slowly add Supercharge Elite to the tank last, in at least 10 times its volume of water to minimise the likelihood of a reverse emulsion forming.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the product or used containers.

spraywisedecisions.com.au is an online weather forecasting program and is recommended for use when planning your pesticide application.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, deliver empty containers to an approved waste management facility. If an approved waste management facility is not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. **Do not burn empty containers or product**

REFILL CONTAINERS (110L, 1000L)

Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS

Will irritate the eyes. May irritate the skin. Avoid contact with eyes and skin. When opening the container and preparing spray wear elbow-length PVC gloves, face shield or goggles. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126).

ADDITIONAL STATEMENTS (WHS REGULATIONS 2011)

Not classified as hazardous under the GHS criteria.

SAFETY DATA SHEET

For further information refer to the Safety Data Sheet (SDS), which can be obtained from your supplier or from the Nufarm website – nufarm.com.au

In case of emergency: Phone 1800 033 498 Ask for shift supervisor. Toll free 24 hours.

CONDITIONS OF SALE

"Any provisions or rights under the Competition and Consumer Act 2010 or relevant state legislation which cannot be excluded by those statutes or by law are not intended to be excluded by these conditions of sale. Subject to the foregoing, all warranties, conditions, rights and remedies, expressed or implied under common law, statute or otherwise, in relation to the sale, supply, use or application of this product, are excluded. Nufarm Australia Limited and/or its affiliates ("Nufarm") shall not accept any liability whatsoever (including consequential loss), or howsoever arising (including negligence) for any damage, injury or death connected with the sale, supply, use or application of this product except for liability which cannot be excluded by statute."
