### Spot spraying

There is no registration for spot spraying of Diurex at any time in any region.

Spot spraying with Barrage for guinea grass control is permitted all year round. Refer to label for details.

### Tank mixes

Tank mixes of Diurex (275-500 g/ha) and Shirquat 250 (1.2-1.6 L/ha) may be used all year round with no restriction period. Higher rates of Diurex and Shirquat may be used subject to date restrictions – see label for details.

Tank mixes of Barrage (530-900 g/ha) and Shirquat (1.2-1.6 L/ha) may be used all year round with no restriction period.

### Ratoon and plant cane

Barrage in ratoon and plant cane (Post-emergent): APPLY ONLY as a directed band spray over a maximum of 60% of the crop area.

For more information, contact your local Nufarm Territory Manager.
