APVMA Approval No.: 41518/1009

Bond is a true sticker, extender providing superior sticking abilities and extending the life of agricultural chemicals. Bond helps to regulate droplet size and reduces drift, allowing a more uniform spray pattern.

DIRECTIONS FOR USE

Bond can be used where the addition of a sticker, spreader or deposit agent is required or recommended on the agricultural chemical label.

RATES OF APPLICATION

Use Bond at a rate to give a 0.1% dilution of the final water volume in the spray tank (see example chart).

EXAMPLE CHART

Spray Tank	Rate of Bond Required
Water Volume	0.1% Dilution
100 Litres	100ml
500 Litres	500ml
1000 Litres	1 Litre

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORIZED UNDER APPROPRIATE LEGISLATION.

MIXING

Half fill the tank with water and commence agitation. Add the required quantity of agricultural chemical. Top up the tank and then add the required quantity of Bond. Continue agitation while topping up the tank and during the spraying process.

CLEANING

Clean tank and nozzles immediately after spraying. DO NOT let dry. The addition of Activator® at 100mL/100L cleaning solution is recommended.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT:

Dangerous to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the original container in a cool well ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple, or preferably pressure rinse containers before disposal. Add rinsings to the spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should NOT be burnt.

Refillable containers

Store in the closed, original container in a cool, well ventilated area away from children, animals, food, feedstuffs, seed and fertilizers. DO NOT store for prolonged periods in direct sunlight. Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 13 11 26).

MATERIAL SAFETY DATA SHEET

For further information refer to the Material Safety Data Sheet (MSDS), which can be obtained from your supplier or the Nufarm website – www.nufarm.com.au

In case of emergency: Phone 1800 033 498. Ask for shift supervisor. Toll free 24 hours.

CONDITIONS OF SALE

“Any provisions or rights under the Competition and Consumer Act 2010 or relevant state legislation which cannot be excluded by those statutes or by law are not intended to be excluded by these conditions of sale.
