

Tri-Base Blue[®]

**Our top copper is still the best,
now with a wider usage rate.**

Performing better gram for gram than copper hydroxides, Tri-Base Blue, now with wider usage rates in grapevines for long-lasting protection against Downy Mildew.

- Tribasic copper sulphate gives a more uniform release of copper ions for superior, long-lasting protection against Downy Mildew
- Now with a wider usage rate in grapevines allowing for greater choice and flexibility in your program
- Optimal particle size for more uniform distribution on plant for improved performance
- Convenient high quality liquid formulation
