

## Nufarm Tank Mix compatibilities

Nufarm is pleased to announce the launch of our new Tank Mix compatibilities list on our website.

It is what we believe to be a user friendly list in which you will be able to see current product tank mixes.

Going forward, this will also be available as an app download for smart phones and tablets, and we will of course let you know when its live!

To access Tank Mix, please visit <https://nufarm.com/uk/products/tank-mix/>

The listed products are physically compatible through a conventional crop sprayer. These tank mixes are not tested for crop safety or product performance and use is at the users own risk. Nufarm will support the physical compatibility of these mixes
