

Foliar Plant Biostimulant

Composition:

Prairie Verte is a biostimulant based on Plant extracts* (1%), osmotic water, sea water, ethyl alcohol, essential oil & micronutrients.

*Plant Extracts: *Smilax aspera* L., *Matricaria chamamilla* L., *Cinchona officinalis* L., *Amica montana* L., *Thuya occidentalis* L., *Taraxacum officinale* L., *Solanum dulcamara* L. *Berberis vulgaris* L., *Capsicum annuum* L., *Ledum palustre*.

Contain trace elements, use only as needed.

Claims and observations:

Prairie Verte is a foliar biostimulant with no nutritive elements containing a complex of active plant ingredients, which boosts the physiological processes of grass species:

- Increases grass density and growth
- Promotes plant's tolerance to abiotic stresses
- Improves nutritional quality of harvest

Direction for use:

Crop	Stage	Method of application
Grassland	0,5 L/ha 1 month before first cut	Foliar
	0,5 L/ha After each cut	
Turf	0,5 L/ha Every 1-2 months, or before a stress	Foliar

Apply in minimum 200 litres water per hectare by boom sprayer
