

AquaNeat®

NON-SELECTIVE HERBICIDE

AQUANEAT® RISES TO THE TOP IN AQUATIC WEED CONTROL.

Uncontrolled weeds in aquatic areas can block water channels, inhibiting irrigation and boat traffic, cause silt buildup, obstruct sight lines and become a breeding ground for insects. For non-selective aquatic weed control, nothing beats AquaNeat® Herbicide. AquaNeat controls almost 200 species of emerged weeds, including a wide range of broadleaf weeds, sedges and annual and perennial grasses, in and around flowing or stagnant fresh and estuaries or brackish water. AquaNeat gives managers the convenience to control weeds in public, agricultural or commercial settings.

COMPETITIVE ADVANTAGES

TOUGH AQUATIC WEED SOLUTION

- Excellent control of cattail, willow, johnsongrass, and phragmites
- Non-volatile
- Perfect for use in flowing, non-flowing or transient bodies of water
- Can be used in wildlife restoration and management areas

AT-A-GLANCE INFO

EPA REG. NO.	228-365
ACTIVE INGR.	glyphosate (53.8%)
FORMULATION	liquid
CHEM. FAMILY	glycine
GROUP NO.	9
MODE OF ACT.	inhibition of EPSP synthase
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	2.5 gal container (2 per case), 30 gal drum, 250 gal tote

Starthistle, yellow
Water hyacinth
Waterlettuce

WOODY BRUSH AND TREES:

Alder
Aspen, quaking
Birch
Dogwood
Hawthorn
Hazel
Kudzu
Poison ivy
Trumpet creeper
Willow

USE SUMMARY

RATES

Annual weeds: Apply to actively growing annual grasses and broadleaf weeds. For broadcast applications, use 1-1/2 pints of AquaNeat® per acre plus 2 or more quarts of a nonionic surfactant per 100 gallons of spray solution if weeds are less than 6 inches tall. If weeds are more than 6 inches tall, use 2-1/2 pints per acre plus 2 or more quarts of an approved nonionic surfactant per 100 gallons of spray solution.

For hand-held, high-volume applications, use a 3/4 percent solution of this product in water plus 2 or more quarts of a nonionic surfactant per 100 gallons of spray solution and apply to foliage of vegetation to be controlled.

Perennial weeds: Apply to actively growing weeds. Apply 3 to 7-1/2 pints per acre as a broadcast spray or as a 3/4 to 1-1/2 percent solution with hand-held equipment.

Woody brush and trees: Apply to actively growing trees and shrubs. Apply 3 to 7-1/2 pints per acre as a broadcast spray or as a 3/4 to 1-1/2 percent solution with hand-held equipment.
