

## 26/36®

### DUAL MODE OF ACTION FOR EFFECTIVE DISEASE CONTROL.

26/36® fungicide's proprietary formulation offers two modes of action and two plant movement strategies to increase disease control. 26/36 is tank-mix compatible with most commonly used fungicides and is an excellent partner in integrated disease management programs for effective control of key turf and ornamental diseases.

## 3336® F

### TRUSTED AND PROVEN, 3336® F IS A FAVORITE FOR POWERFUL BROAD-SPECTRUM CONTROL.

3336® F is the must-have broad-spectrum fungicide. It controls disease through preventive and curative properties in both cool- and warm-season turf species. 3336 works through a systemic mode of action in the plant to tackle a wide range of diseases in many turf and ornamental settings.

## AFFIRM™ WDG

### COUNT ON THE PROVEN LEADER FOR CONTROL OF ANTHRACNOSE, RHIZOCTONIA, AND MORE.

Affirm™ WDG fungicide offers a unique mode of action to control many tough turf diseases such as brown patch and anthracnose while helping to mitigate disease resistance development. Affirm is a concentrated, easy-to-mix water-dispersible granule formulation and a proven leader for rapid curative control of selected diseases.

## PINPOINT®

### YOUR BEST CHOICE FOR DELAYING RESISTANCE AND MAXIMIZING YOUR DOLLAR SPOT PROGRAM.

Pinpoint® provides superintendents with an excellent season-long fungicide rotation partner to optimize disease management stewardship. Pinpoint has been proven in university performance trials to deliver outstanding targeted control of dollar spot as well as control of brown patch to help ensure a clean field of play.

## TORQUE™

### PREVENTIVE AND CURATIVE CONTROL IN A CONVENIENT LIQUID SUSPENSION FORMULA THAT PREVENTS SETTLING.

Torque™ provides long-lasting curative and preventive control against tough turf and ornamental diseases such as anthracnose, spring dead spot and winter patch. Torque protects all course areas and is labeled for both cool- and warm-season turfgrasses.

## TOURNEY®

### EXCEPTIONAL CONTROL FROM ONE OF THE MOST ACTIVE FUNGICIDES ON THE MARKET.

Tourney® fungicide delivers broad-spectrum disease control for exceptional turf quality and with labeled low-use rates the overall environmental load may be reduced. As one of the most active fungicides, it's the go-to solution for tough disease control, including anthracnose, brown patch, summer patch, take-all patch, fairy ring, dollar spot, gray leaf spot, snow mold and more.

## TRACTION™

### FLEXIBILITY AND SUCCESS MEET WITH CURATIVE + PREVENTIVE ACTIVITY AND SPRING-TO-FALL APPLICATION OPTIONS.

Traction™ fungicide is a proven premix that works on contact and systemically to control 19 challenging diseases, including anthracnose, dollar spot, brown patch and snow mold, plus algal scum. Traction combines FRAC 29 and 3 to support resistance management and performs on every course area including fairways, greens, aprons and tees.

# EXCEL

NUFARM LEADERSHIP PROGRAM

## INVESTING IN THE FUTURE

"THE SUPPORT THAT WE'RE GETTING IS JUST AMAZING. WE CAN'T GET THAT ANYWHERE ELSE."

— Jessica Lenihan,  
Assistant Superintendent  
Hayden Lake Country Club,  
Coeur d'Alene, Idaho

Founded by Nufarm and GCSAA, the EXCEL Leadership Program offers leading-edge development opportunities for assistant superintendents chosen from many excellent applicants. Each class participates for three years, learning leadership in personal, career, community and industry stewardship that will impact the future of golf course turf management.
