

# SPIRATO MTm 285 FS

This seed has been treated with (metalaxyl, thiophanate-methyl, fludioxonil) Seed Treatment.

## **CAUTION** **TREATED SEED**

DO NOT USE FOR FEED, FOOD, OR OIL PURPOSES. STORE AWAY FROM FEEDS AND OTHER FOODSTUFFS. DO NOT ALLOW CHILDREN, PETS OR LIVESTOCK TO HAVE ACCESS TO TREATED SEED.

### PRECAUTIONARY INFORMATION FOR TREATED SEED

Seed Treated with SPIRATO MTm 285 FS is harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Store treated seeds away from feeds and foodstuffs.

#### PERSONAL PROTECTIVE EQUIPMENT (PPE):

**Note:** Persons handling product, treating seed, or involved in bagging treated seed, sewing or moving bags of treated seed, or cleaning up bagging areas or seed treatment equipment must wear the following PPE: long pants, long-sleeved shirt, shoes, socks, and chemical-resistant gloves when handling treated seed.

Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

#### ENVIRONMENTAL HAZARDS

**Groundwater Advisory Statement:** Metalaxyl is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Treated seeds exposed on soil surface may be hazardous to birds and wildlife.

#### USE RESTRICTIONS:

DO NOT graze or feed livestock on treated areas for 30 days after planting.

After the seeds have been planted, do not enter or allow worker entry into treated areas during the **restricted-entry interval (REI)** of **12 hours**. Exception: If the treated seed is soil-injected or soil-incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is: coveralls, chemical-resistant gloves made of any waterproof material, and chemical-resistant footwear.

### **DISPOSAL:**

Dispose of all excess treated seed by burying seed away from bodies of water. Cover or collect treated seeds spilled during loading and planting. **DO NOT** contaminate water bodies when disposing of planting equipment wash water.

Excess treated seed may be used for ethanol production only if (1) by-products are not used for livestock feed and (2) no measurable residues of pesticides remain in the ethanol by-products that are used in agronomic practice.
