

Champ® Formula 2 Flowable

Don't Settle for Less.

Champ® Formula 2 Flowable is an advanced copper formulation that delivers excellent disease control. Developed with a small particle size, Champ Formula 2 Flowable stays in suspension longer, mixes easier in water and covers plants better to deliver superior protection.

STATE-OF-THE-ART PERFORMANCE

- Excellent control of key diseases
- Consistently ideal crystal size combined with state-of-the-art surfactants means Champ Formula 2 Flowable sticks better and performs better
- Long shelf life
- Pours and mixes easily – even after extended storage

EPA REG. NO.	55146-64
ACTIVE INGR.	copper hydroxide (37.5%)
FORMULATION	flowable
CHEM. FAMILY	inorganic
GROUP NO.	M1
MODE OF ACT.	multi-site contact activity
REI	48 hours
SIGNAL WORD	warning
RESTRICTED	no
PACKAGE SIZE	2 x 2.5 gal, 120 gal

Champ® Formula 2 Flowable

KEY USES

Berries
Field crops
Tree crops
Tropical crops
Vegetable crops
Vines
Hops

KEY DISEASES CONTROLLED

(See product label for complete list)

Algal spot
Alternaria leaf spot
Anthracnose
Bacterial blast
Bacterial blight
Bacterial canker
Black rot
Blossom blast
Blossom brown rot
Brown rot
Brown spot
Cane spot
Carrot blight
Crown rot
Dead bud
Downy mildew
Early blight
European canker
Fire blight
Late blight
Leaf spot
Melanose
Phomopsis
Powdery mildew
Pseudomonas blight
Purple blotch
Scab
Septoria leaf blotch
Shoot blast
Yellow rust

USE SUMMARY

Apply 1 to 16 pints per acre depending on crop and disease.

Champ® Formula 2 Flowable can be used with all types of spraying equipment. Refer to the label for the volume per acre depending on crop and equipment.

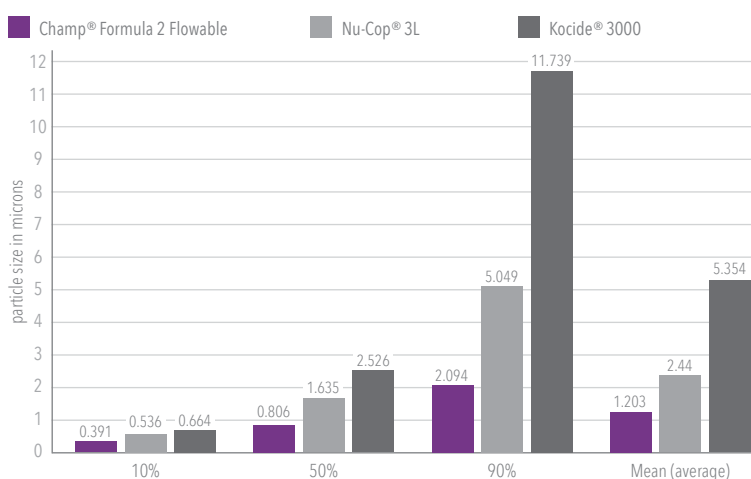

See label for complete directions for use.

PHYSICAL PROPERTIES

The smaller particle size helps Champ Formula 2 Flowable maintain suspension during storage and offers better coverage after application.

PARTICLE SIZE COMPARISON

Measured at RTP Lab on Jan. 27, 2012 with Malvern Mastersizer

Particle size comparison of Champ Formula 2 Flowable and Kocide® 3000 over a percentage range of particles. Champ Formula 2 Flowable contains smaller, more uniformly-sized particles, with 90 percent of particles less than 2.094 microns in size, and a mean particle size of 1.203 microns, compared to 5.354 microns for Kocide 3000.

Champ Formula 2 Flowable easily disperses with mild agitation.
