

Rapport[®] TankMix

Rapport[®] TankMix Makes Your Cereal Herbicide Program Better.

Rapport[®] TankMix Selective Herbicide delivers reliable control of a broad spectrum of broadleaf weeds for clean fields and maximum yield potential. The active ingredients in Rapport TankMix have been shown to be safe to growing crops while delivering dependable control of broadleaf weeds. Rapport TankMix boosts any weed control program: When added to your small grains, grass or kochia control program, Rapport TankMix will help manage tough weeds. Plus, with Rapport TankMix, you can rotate to almost any crop after harvest.

KEY PERFORMANCE BENEFITS

- Dependable post-emergent control of a broad spectrum of broadleaf weeds
- Low tank-mix antagonism
- Excellent crop safety
- Flexible rotation options

EPA REG. NO.	71368-80
ACTIVE INGR.	thifensulfuron-methyl (40%), tribenuron-methyl (10%)
FORMULATION	water-dispersible granule
CHEM. FAMILY	sulfonylurea
HRAC NO.	2
MODE OF ACT.	ALS inhibitor
REI	12 hours
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	8 x 48 oz

Grow a better tomorrow.

Rapport® TankMix

KEY USES

Barley
Fallow
Preplant or post-harvest burndown herbicide
Triticale
Wheat

KEY WEEDS CONTROLLED

(See product label for complete list)

Annual knawel
Annual sowthistle
Buckwheat; common, wild
Chamomile; corn, false, wild
Coast fiddleneck
Common chickweed*
Common cocklebur
Common groundsel
Common lambsquarters
Common ragweed
Common sunflower*
Cowcockle
Cress (*mouse-ear*)
Cutleaf evening primrose**
Curly dock
Nightshade; cutleaf, eastern black, silverleaf
Field pennycress
Flixweed
Giant ragweed
Hemp sesbania
Henbit †
Jimsonweed
Kochia †
Ladysthumb
Lanceleaf sage
London rocket
Mallow; common, little
Marestail*
Marshelder
Miners lettuce
Morningglory; ivyleaf, tall
Mouse-ear chickweed
Mustard; black, tansy, treacle, tumble, wild
Pepperweed species
Puncturevine
Purslane
Redmaids
Shepherd's-purse
Pigweed; redroot, smooth, spiny
Smartweed; green, Pennsylvania
Tall waterhemp
Velvetleaf
Yellow rocket

* specific weed problems, see label
for more information

** partial control

† naturally occurring biotypes of this
weed are known to be resistant

USE SUMMARY

Rapport® TankMix can be mixed with grass-control herbicides and other broadleaf herbicides for weed control in wheat, barley and/or triticale.

RATES

Apply 0.6 to 1.0 oz/A to select weeds from germination to 8 inches in height.

Wheat, barley and triticale: Make applications after the crop is in the 2-leaf stage, but before the flag leaf is visible.

Post-harvest: Apply when the majority of weeds have emerged and are actively growing.

Fallow: Apply when the majority of weeds have emerged and are actively growing.

Preplant burndown: Apply up through planting, but before wheat, barley or triticale plants emerge. Apply at least 60 days before planting to sugarbeets, winter rape and canola fields. Apply at least 45 days before planting for any other crops (such as soybeans and field corn, cotton, rice or grain sorghum.)

See label for complete directions for use.
