

Mallet® 2F T&O

Fast Knockdown in a Lasting Foliar Spray.

Mallet® 2F T&O offers quick knockdown, residual control, low use rates and an easy-mixing formulation. Low use rates mean you'll have less product to handle. Best of all, since Mallet 2F offers both quick knock down and longlasting residual control, you'll benefit from reduced application frequency.

EFFECTIVE AND LASTING PEST CONTROL

- Controls a broad spectrum of key insects
- Quick knockdown
- Long-lasting residual control; up to 12 weeks as a drench application and 3-4 weeks as a spray application
- Higher use rates for large trees
- Labeled for multiple markets
- Labeled for certain borer pests

EPA REG. NO. 228-695

ACTIVE INGR. imidacloprid (21.4%)

FORMULATION liquid

CHEM. FAMILY neonicotinoid

IRAC NO. 4A

Mallet® 2F T&O

KEY USES

Fruit and nut trees
 Interior landscapes
 Shrubs and ornamental plants in landscape, nursery and interiorscapes
 Turfgrass (including golf courses and sod farms)

KEY PESTS CONTROLLED

(See product label for complete list)

Aphids
 Ataenius
 Billbugs
 Emerald ash
 Flatheaded borers
 Green June beetles
 Japanese beetles
 Leafminers
 Mealybugs
 Mole crickets
 Oriental beetles
 Sawfly larvae
 Soft scales
 Southern masked chafers
 Weevils
 White grub larvae

USE SUMMARY

ORNAMENTALS

Apply by foliar or soil applications, including soil injection, drenches and broadcast sprays. Foliar applications offer locally systemic activity against insect pests.

Foliar application rates: 1.5 fl oz (45 mL) per 100 gal of water

Soil injection or drench rates: 0.1 – 0.2 fl oz (3 to 6 mL) per inch of trunk diameter or per foot of shrub height

GRASSY AREAS IN NURSERIES

19.2 – 25.6 fl oz per acre (0.46 – 0.6 fl oz per 1,000 sq ft)

TURFGRASS

1.25 – 1.6 pt per acre (or 0.46 to 0.6 fl oz per 1,000 sq ft)

TREES

Residential, commercial, ornamental, including nursery and interiorscapes, as well as state, national, and private wooded and forested areas for the insect pests listed on the label.

Soil injection, drench and slow release irrigation bag applications:

0.1 – 0.4 fl oz per inch of trunk diameter (DBH)

You may use the higher rate (0.3 – 0.4 fl oz) only for trees >15 inches (DBH) to control Asian longhorned beetle, emerald ash borer, eucalyptus longhorned borer, bronze birch borer and alder borer.

TURFGRASS

Residential, commercial, ornamental, including nursery and interiorscapes, as well as state, national, and private wooded and forested areas for the insect pests listed on the label.

Soil injection, drench and slow release irrigation bag applications:

0.1 – 0.2 fl oz per foot of shrub height

See label for complete directions for use.
