

PLANT GROWTH REGULATOR

HARVEST FASTER WITH CUTOUT®.

Count on CutOut® from Nufarm for fast defoliation even when cold fronts are in the forecast. CutOut offers consistent, clean defoliation, removing mature leaves and new growth to reduce trash and preserve lint quality. CutOut can be tank-mixed with other harvest aids to improve performance for a faster finish.

COMPETITIVE ADVANTAGES

- Offers consistent, clean defoliation
- Defoliates with less desiccation
- Helps preserve lint quality by removing mature leaves and suppressing new growth
- Performs even in tough weather conditions
- Excellent tank-mix partner with Super Boll®, FirstPick® or any other boll-opening products

AT-A-GLANCE INFO

EPA REG. NO.	228-678
ACTIVE INGR.	diuron (6%), thidiazuron (12%)
FORMULATION	suspension concentrate
CHEM. FAMILY	urea
GROUP NO.	7
MODE OF ACT.	promotion of cytokinin activity
REI	24 hours
SIGNAL WORD	caution
PACKAGE SIZE	2.5 gal (2 per case)

KEY USES

Cotton

LABELED USES

Defoliation

USE SUMMARY

DEFOLIANT TREATMENT

Tank Mix:

Tank mixing CutOut with other cotton defoliant products can improve defoliation and aid in accelerating the opening of mature, unopened cotton bolls. Best activity will be obtained where the tank mix is applied to mature cotton plants. For cotton produced in non-arid conditions, apply 3.2 to 6.4 fl oz per acre of CutOut plus recommended rate of other cotton defoliant products.

How to Apply:

Using air or ground equipment, apply the desired rate in 10 to 25 gallons of spray per acre by ground or 2 to 10 gallons per acre by air.

When to Apply:

Apply before harvest at a rate of 6.4 to 16.0 ounces of product per acre. After application, a second CutOut application or an application of an alternate defoliant may be required, but DO NOT exceed 16 ounces (1 pint) of CutOut per acre per season. Time application to occur when cotton plants are mature and when the last harvestable bolls have matured.

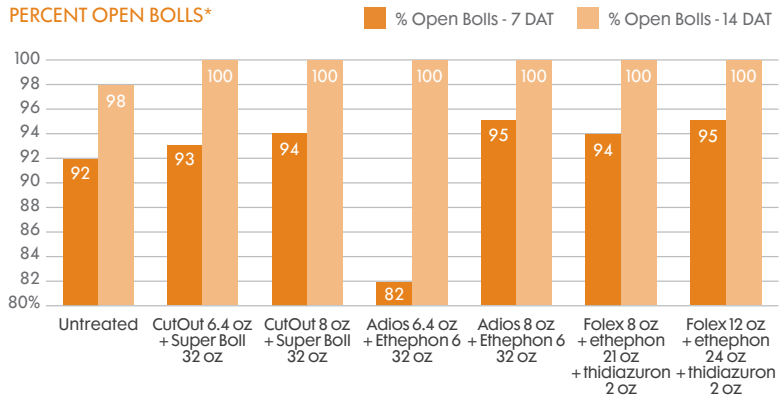

Pre-harvest Interval:

DO NOT harvest cotton seed less than 5 days after the last application.

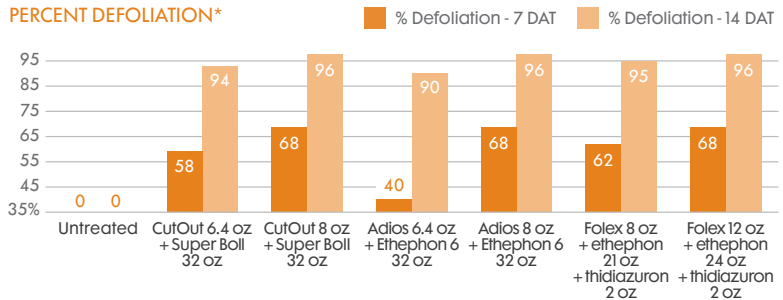

PROVEN PERFORMANCE

CutOut® plus Super Boll® offer excellent boll opening, rapid defoliation and minimal leaf sticking with outstanding regrowth suppression.
