

Nufarm

Imazuron™**Ensure Baregrounds Stay Bare.**

With just one application of Nufarm Imazuron™, gravel yards and other intentionally bare areas are rid of 150 annual and perennial grasses, broadleaf weeds and vines. The residual control of Imazuron ensures that new weeds don't creep up and the dispersible granule formulation prevents nozzles and injection units from clogging. Plus, Imazuron makes an excellent tank-mix partner with other Nufarm products like Razor® and Razor Pro to broaden the spectrum of control.

KEY PERFORMANCE BENEFITS

- Provides knock down and long-term control of a wide range of broadleaf weeds, vines, hardwoods, and grasses
- Excellent long-term control of grasses such as broadleaf signalgrass, johnsongrass and sand dropseed
- Season-long bareground control
- Unique dispersible granule formulation won't clog nozzles or injection units ensuring easy application and even product distribution

EPA REG. NO.	228-654
ACTIVE INGR.	imazapyr (7.78%), diuron (62.22%)
FORMULATION	water dispersible granule
CHEM. FAMILY	imidazolinone, substituted urea
GROUP NO.	2 and 7
MODE OF ACT.	AHAS-inhibitor and photosynthesis-inhibitor
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	4 x 10 lb

Grow a better tomorrow.

Imazuron™

KEY USES

Non-crop areas where bare ground is desired
(industrial non-crop areas including utility plant sites, petroleum tank farms, pumping installations, storage areas, railroads, utility, and pipeline rights-of-way; highway rights-of-way; non-irrigation ditchbanks; fencerows; farmyards; and non-crop areas around farm buildings)

Paved surfaces

KEY WEEDS CONTROLLED

(See product label for complete list)

GRASSY WEEDS

Barnyardgrass
 Bluegrass (annual)
 Brome (smooth)
 Cogongrass
 Crabgrass
 Foxtail
 Johnsongrass
 Saltgrass
 Sandbur
 Sand dropseed
 Sprangletop
 Vaseygrass

BROADLEAF WEEDS

Dogfennel
 Goldenrod
 Horseweed
 Kochia
 Lambsquarters
 Pigweed
 Puncturevine
 Ragweed
 Russian thistle
 Shepherd's-purse
 Velvetleaf

VINES (PERENNIAL)

Greenbriar
 Kudzu
 Morningglory
 Trumpetcreeper
 Virginia creeper

Nufarm Imazuron also controls more than 30 species of brush

APPLICATION RATES

Mix Nufarm Imazuron™ in water and apply using properly calibrated equipment to deliver a uniformly distributed spray pattern. Apply this product at 7-19 pounds of product per acre, although rates as low as 5 pounds per acre may be used only if tank mixed with another herbicide. For retreatment purposes within the same growing season, apply a rate of less than 7 pounds per acre.

Less than 15 inches rainfall: 7-10 lbs per acre

15 to 35 inches rainfall: 8-13 lbs per acre

Over 35 inches rainfall: 13-19 lbs per acre

See label for complete application rates.
