

Tuscany™

Stay Weed-free with the Power of Tuscany™.

The tree, nut and vine specialist, Tuscany™ Herbicide takes out tough weeds with long-lasting residual control of more than 60 weeds. Tuscany stays where you put it; it won't leach or volatilize. Plus, Tuscany offers excellent rotational flexibility. For excellent reliability, proven crop safety and dependable control in various weather conditions, count on Tuscany.

BROAD SPECTRUM

- Controls more than 60 annual broadleaf and grass weeds, including marehail, fleabane, mallow, filaree and annual grasses

LONG LASTING

- Offers residual control in tree fruit, nut and grapes to keep weeds clear for months

NO LEACHING OR VOLATILIZATION

- At least ¼ inch rainfall or irrigation required to release activity

EPA REG. NO.	71368-102
ACTIVE INGR.	flumioxazin (51.0%)
FORMULATION	water-dispersible granule
CHEM. FAMILY	N-phenylphthalimides
GROUP NO.	14
MODE OF ACT.	PPO inhibitor
REI	12 hours
SIGNAL WORD	caution
RES. USE	no
PACKAGE SIZE	4 x 2.5 lb bottles/case, 48 cases/pallet

Grow a better tomorrow.

KEY USES

Many crops including; almond, grape, mint, pistachio, potato, non-bearing fruit and nut trees, fallow land and to maintain bare ground on non-crop areas of farms, orchards and vineyards

KEY WEEDS CONTROLLED

(See product label for complete list)

Chickweeds (*common*)
 Dandelion
 Filaree
 Fleabane (*hairy*)
 Groundsel (*common*)
 Henbit
 Johnsongrass (*seedling*)
 Lambsquarters (*common*)
 Little mallow
 London rocket
 Maretail/horseweed
 Mustard (*wild*)
 Nightshades (*black*)
 Pigweeds (*redroot*)
 Prickly lettuce
 Puncturevine
 Purslane (*common*)
 Radish (*wild*)
 Redmaids
 Shepherd's-purse
 Sowthistle (*annual, prickly*)
 Waterhemp (*common, tall*)

PROVIDES ACTIVITY ON:

Barnyardgrass
 Bluegrass (*annual*)
 Crabgrass (*large*)
 Downy brome
 Lovegrass (*California*)
 Panicums (*fall*)
 Ryegrass (*Italian*)
 Russian thistle
 Smartweeds (*Pennsylvania*)

USE SUMMARY - ROTATION OPTIONS

VINEYARDS AND ORCHARDS

RATE	CROP	ROTATIONAL INTERVAL
6 to 12 oz/A	Trees can be transplanted 2 months after an application of this product ¹	18 mths (no tillage)

¹ Transplanted apple, apricot, avocado, bushberries (including blueberry), cherry, fig, grape, grapefruit, lemon, nectarine, nut trees (including pistachio), olive, orange, peach, pear, plum (including dried plum), and tangerine can be planted 2 months after application of 2 to 12 oz/A of this product.

Pre-emergence: Pre-emergence applications should be made to a weed-free soil surface.

Burn down: For best results, tank mix Tuscany™ with a burn down herbicide.

Timing: For best results, apply twice per year. Apply after harvest and before bud break.

Spray volume: Minimum of 15 gallons of spray solution per acre.

Adjuvant: Per recommendation of tank mix partner.

POTATO

For use on potatoes only in Colorado, Delaware, Idaho, Florida, Maryland, Minnesota, Montana, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, North Dakota, Oregon, South Dakota, Texas, Utah, Washington, Washington DC, and Wyoming.

RATE	CROP	ROTATIONAL INTERVAL
1.5 oz/A	Potatoes	Consult Product Label

DO NOT apply more than 1.5 oz of Tuscany per acre during a single application.

DO NOT apply more than 1.5 oz of Tuscany per acre during a single growing season.

DO NOT apply to rill (furrow) irrigated potatoes.

Many weather related factors, including high wind, splashing or heavy rains or cool conditions at or near potato emergence may result in potato injury in fields treated with Tuscany.

Pre-emergence: Apply to soil covered potatoes for pre-emergence suppression.

Timing: Apply to potatoes after hilling. Tank mix with other labeled herbicides for broad spectrum weed control. A minimum of 2 inches of soil must cover the vegetative portion of the potato plant at the time of application. Application to potatoes with less than 2 inches of soil covering the vegetative portion of the potato may result in crop injury.

See label for complete directions for use, including chemigation application rates and directions for use on potatoes.
