

Cleansweep™ D

SELECTIVE HERBICIDE

SUPERIOR CLEANUP OF BROADLEAF WEEDS

Keep your fields clean with the outstanding value of Cleansweep™ D Selective Herbicide. Cleansweep D offers you outstanding control of tough broadleaf weeds including kochia, wild buckwheat and prickly lettuce. With three active ingredients, it offers an excellent resistance management option. Plus, Cleansweep D has very few crop rotation restrictions, giving you the freedom and cropping flexibility for the next planting season. With Cleansweep D, you can count on outstanding performance, convenience and exceptional value.

COMPETITIVE ADVANTAGES

- Outstanding broad-spectrum broadleaf weed control including tough weeds like kochia, wild buckwheat, lambsquarters and prickly lettuce
- Good crop safety for labeled uses
- Great value in weed control
- Excellent resistance management option
- Excellent crop rotation profile

Sunflower
Thistle, Russian*
Velvetleaf

*suppression only

USE SUMMARY

Make applications from the fully tillered stage of growth but before the jointing stage at a rate of 1–1.5 pt/A. Use the higher rate when weeds are less susceptible or for heavy weed populations.

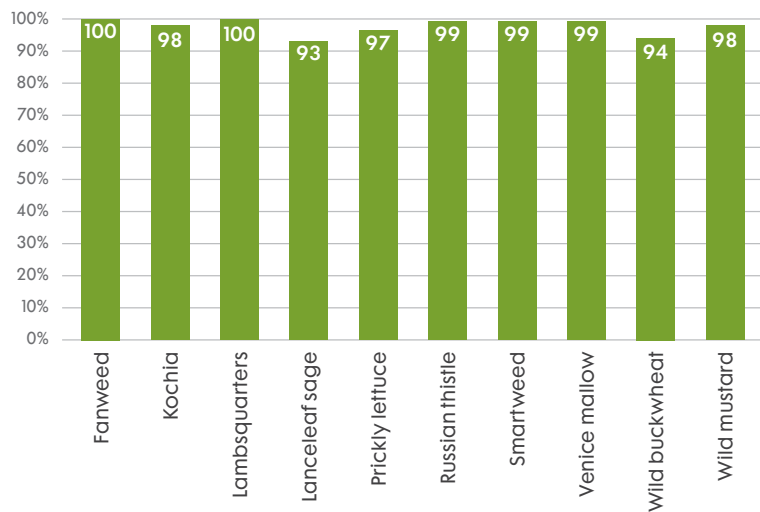

See product label for complete directions for use.

PROVEN PERFORMANCE

WEED CONTROL PERCENTAGES WITH CLEANSWEEP™ D

Treatments applied at label rates.
