

PANTHER® HERBICIDE BRAND FAMILY

FIND YOUR PANTHER® FIT

No two fields are the same. Panther Herbicides are designed to boost your tank mix impacts and get the residual you need. That's why our line of Panther Herbicides is designed to deliver custom-fit solutions to agronomic challenges. Find the Panther below that meets your region and unique growing needs.

Panther SC

KEY USE GEOGRAPHIES*

Panther® SC Herbicide provides excellent residual control of tough broadleaf weeds while offering flexible rotation options to many crops. Apply in the fall, early preplant, or preplant or pre-emerge for residual control in Roundup Ready® systems.

KEY PERFORMANCE BENEFITS

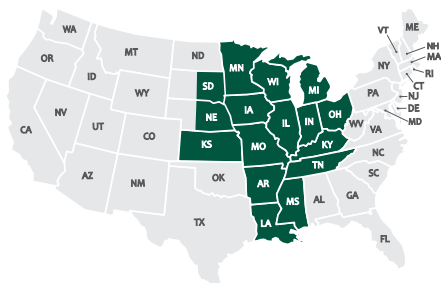

- Liquid formulation makes mixing and loading faster and easier
- Broad-spectrum control of annual broadleaf and grass weeds, including most broadleaf weeds resistant to glyphosate
- Offers long-lasting residual control
- Flexible rotation options
- Enhanced speed of control on a broader weed spectrum in labeled burndown programs

KEY USES

Cotton, dry beans, field corn, peanuts, soybeans, sugarcane, sweet potato, fallow land and bare ground in non-crop farm areas

Panther Pro

KEY USE GEOGRAPHIES*

Panther® Pro Herbicide brings the power of three actives together in the first liquid flumioxazin premix. Labeled for preplant and pre-emerge use on soybeans, Panther Pro keeps fields clean with excellent residual control of 60+ broadleaf weeds and grasses.

KEY PERFORMANCE BENEFITS

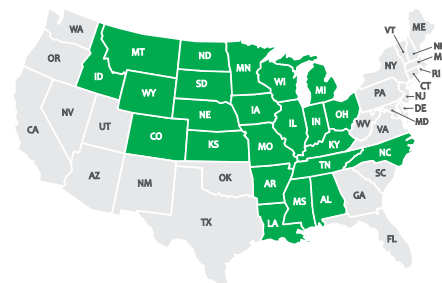

- First liquid flumioxazin premix – with three different modes of action
- Excellent broad-spectrum weed control for soybeans
- Long residual on 60+ broadleaf weeds and grasses including susceptible winter annuals and many glyphosate-resistant species
- Apply alone or as part of a fall, fallow seedbed, or spring burndown program
- Also labeled for fallow and non-crop bare ground areas

KEY USES

Soybeans, fallow land, bare ground in non-crop farm areas

Panther MTZ

KEY USE GEOGRAPHIES*

Panther® MTZ delivers a double punch with burndown and residual efficacy. With two modes of action, Panther MTZ gives growers a perfect resistance management tool on the most difficult broadleaf weeds including Palmer pigweed, waterhemp and marestail.

KEY PERFORMANCE BENEFITS

- Convenient liquid formulation makes mixing and loading faster and easier
- Wide range of application timings, providing crop rotation flexibility
- Provides both knockdown and residual weed control
- Contains optimal amount of metribuzin compared to other MTZ premixes
- Controls a broad spectrum of broadleaf and grass weed species

KEY USES

Soybeans, sugarcane, field corn, fallow land
