

FASTER, LONGER WEED CONTROL WITH CHEETAH® PRO + SUREGUARD® SC

Cheetah® Pro

SureGuard® SC
HERBICIDE

Save time, money, and labor with the premier program for landscape and bareground weed control. Lawn Care Operators (LCOs) can count on Cheetah® Pro non-selective herbicide and SureGuard® SC herbicide to deliver 4+ months of weed knockdown. This non-selective and residual tank mix provides faster and more effective weed control than non-selectives alone, which ultimately keeps weeds out and customers happy.

FASTER, LONGER & MORE EFFECTIVE CONTROL

- Tank mix of Cheetah Pro + SureGuard SC delivers 4+ months of control – making it the longest residual available
- Faster post-emergence control than non-selectives alone
- Broad-spectrum pre- and post-emerge control of tough broadleaf and grassy weeds – even glyphosate-resistant

POST-EMERGENCE APPLICATION

- Established ornamentals show tolerance to Cheetah Pro + SureGuard SC when applied to soil at plant base *(sprays do not directly contact or drift onto desirable plants)*
- For maximum plant safety around ornamentals, direct applications toward the soil *(leave a sufficient buffer to ensure spray solution does not contact desired plants)*

APPLICATION RATE

Apply 3.5 pt Cheetah Pro + SureGuard SC 10 fl oz/A.
1 gal of spray solution covers 1,000 sq ft (44 GPA).

BACKPACK APPLICATIONS
Mix 1.25 fl oz Cheetah Pro + 0.25 fl oz of SureGuard SC per finished gallon.
Apply 1 gal of spray solution to 1,000 sq ft.

SAVE LABOR – ADD LASTING SUREGUARD® SC FOR EXTENDED WEED CONTROL

24 DAT // Treated May 21, 2019 // Dr. Aaron Hathaway

GET THE LONGEST RESIDUAL CONTROL AVAILABLE – MORE THAN 4 MONTHS.
CHEETAH PRO KNOCKS WEEDS DOWN AND SUREGUARD SC KEEPS WEEDS DOWN.
