TWO MODES OF ACTION.
ONE POWERFUL WEAPON.

With preventive and curative control, one application of Aloft® Insecticide effectively combats insect pests. Prevent troublesome surface- and soil-feeding turf pests – including white grubs – with a single early treatment or knock down existing pests with flexible application options from April to September.

Plus, Aloft LC SC attacks Red Imported Fire Ants. EPA approved for fire ant control, Aloft LC SC takes them down within seven days and lasting residual control keeps them down.

• Two modes of action for excellent control of insect pests, including white grubs
• Provides both preventive and curative protection
• Flexible application options – apply April through early September
• Fast, systemic control and lasting residual control with one product
• Granular and SC formulations available

ALOFT LC SC FOR FIRE ANT CONTROL
• Effective control within seven days
• Labeled for use in the fall as a preventive treatment option
• User-friendly SC formulation for quick application

TWO MODES OF ACTION. ONE POWERFUL WEAPON.

KEY USES

Airports, arboretums, athletic fields, business complexes, cemeteries, industrial complexes, parks and recreation areas, playgrounds, residences, schoolyards

KEY INSECTS CONTROLLED

(See product label for complete list)

Armyworms
Billbugs
Black turfgrass Ataenius
Chinch bugs*
Cutworms
European crane fly
Grasshoppers
Leafhoppers
Mole crickets
Pillbugs
Sod webworms
Sowbugs
Spittle bug
Sugarcane grub
White grubs:
  Asiatic garden beetle
  European chafer
  Green June beetle
  Japanese beetle
  Northern masked chafer
  Phyllophaga spp.
  (May or June Beetle)
  Oriental beetle
  Southern masked chafer

ALOFT LC SC ONLY

Fire ants (Red Imported)

* Use Arena® Insecticide for areas where pyrethroid resistant chinch bugs are known or suspected.

USE SUMMARY

RATES

Aloft® LC G: 1.8 - 3.6 lbs/1,000 sq ft
Aloft® LC S: 0.27 - 0.54 fl oz/1,000 sq ft

Red Imported Fire Ants: 0.46 fl oz Aloft LC SC/1,000 sq ft (control)
  0.33 fl oz Aloft LC SC/1,000 sq ft (suppression)

See product label for complete directions for use.

APPLICATION RESTRICTIONS

Do not apply more than a total of 23.3 oz of Aloft LC SC (0.4 lb of clothianidin active ingredient, 0.2 lb bifenthrin) per acre per season.

Do not apply more than a total of 160 lbs of Aloft LC G (0.4 lb of clothianidin active ingredient, 0.2 lb bifenthrin) per acre per season.

If the maximum season limit of Aloft LC SC or G has been applied and pest populations require additional treatments, use another non-clothianidin-based registered pesticide labeled for control of the targeted insects. You may also use additional products containing bifenthrin as long as the maximum amount of bifenthrin does not exceed 0.4 lb per acre per season for use in lawns and perimeters.

See label for complete application restrictions.
