

# SureGuard® SC

## HERBICIDE

### MULTI-USE HERBICIDE INCLUDING AQUATICS

New from Nufarm, liquid SureGuard® SC delivers the exceptional weed control that you've come to expect from SureGuard in a new convenient liquid formulation. Also, SureGuard SC is now your one product for weed control in nurseries, landscapes, bare ground, cracks and crevices, dormant Bermudagrass and aquatics.

#### KNOCK OUT TOUGH WEEDS QUICKLY

- Long lasting residual control of grass and broadleaf weeds
- Convenient easy to mix and apply patent pending liquid formulation
- Broad spectrum including tough-to-control weeds
- Fast and effective knockdown when tank mixed with glyphosate, even on glyphosate-resistant weeds
- Non-staining, spray formulation
- No yellow color, odor, or concerns with off-target movement and volatility

#### UNBEATABLE AQUATIC WEED CONTROL

- Fast and selective control of tough invasive and nuisance plants
- Dissipates quickly from the water column and does not accumulate in sediment = favorable environmental profile
- New liquid SC formulation is more concentrated requiring less product than the dry formulation for ease of application, transport and handling

#### SUREGUARD SC DELIVERS OUTSTANDING WATERMEAL CONTROL

Pennsylvania Experimental Use Permit (EUP) trial conducted by Cygnet Enterprises, Inc.  
Target aquatic plant = watermeal; Rate = 150 ppb

<b>EPA REG. NO.</b>	71368-114
<b>ACTIVE INGR.</b>	flumioxazin (44%)
<b>FORMULATION</b>	soluble concentrate
<b>CHEM. FAMILY</b>	N-phenylphthalimide
<b>HRAC NO.</b>	14
<b>SIGNAL WORD</b>	no signal word required
<b>RESTRICTED</b>	no
<b>PACKAGE SIZE</b>	8 x 1 pt, 4 x 64 fl oz case

- AQUATIC
- COMMERCIAL
- CONTAINER-GROWN NURSERY
- FIELD-GROWN NURSERY
- GOLF TURF
- LANDSCAPE ORNAMENTALS
- PRE-EMERGE
- POST-EMERGE
- RESIDENTIAL
- TURF

Grow a better tomorrow.

# SureGuard® SC

## HERBICIDE

### KEY USES

Dormant Bermudagrass on residential sites, golf courses, and sod farms  
Landscape ornamentals  
Non-bearing fruit and nut trees  
Non-crop areas: around buildings, fencerows, gravel surfaces, driveways, and ground mats  
Slow moving or quiescent aquatic sites

### KEY WEEDS CONTROLLED

(See product label for complete list)

Beggarweed, Florida  
Bittercress  
Barnyardgrass\*  
Bluegrass\*  
Chickweed  
Crabgrass\*  
Dandelion\*  
Eclipta  
Field pennycress  
Foxtail\*  
Goosegrass\*  
Groundsel  
Kochia  
Lambsquarters  
Mallow  
Morningglory  
Nightshade  
Palmer amaranth  
Pennsylvania smartweed  
Pigweed  
Pineapple-weed\*  
Prickly sida (*teaweed*)  
Puncturevine  
Pusley, Florida  
Ragweed  
Redmaids  
Russian thistle  
Shepherd's-purse  
Spiny amaranth  
Spurge  
Velvetleaf  
Waterhemp  
Yellow rocket

\*Pre-emerge only

### AQUATIC WEEDS

Alligator weed  
Curlyleaf pondweed  
Duckweed  
Filamentous  
Frog's bit  
Water fern  
Water lettuce  
Watermeal

### APPLICATION RECOMMENDATIONS

#### WOODY LANDSCAPE ORNAMENTALS AND BARE GROUND AREAS

Application of SureGuard® SC in the vicinity of ornamental plants is limited to directed sprays around well established woody shrubs and conifer and deciduous trees listed in the product label. SureGuard SC may also be applied to maintain bare ground in non-crop areas as listed in the product label. Do not apply this product within any enclosed structure.

**Pre-emergence Weed Control:** Mix 0.18 to 0.27 fl oz of this product per gal of spray solution and apply 1 gal of spray solution to 1,000 sq ft prior to weed germination.

**Post-emergence Weed Control:** Mix 0.18 to 0.27 fl oz of this product per gallon and apply 1 gal of spray solution to 1,000 sq ft to actively growing weeds.

#### DORMANT BERMUDAGRASS (Only for use in certain states, see product label)

SureGuard SC may be applied as a single or split application to well established dormant Bermudagrass. It will provide pre-emergence and early post-emergence control of annual bluegrass, chickweed, henbit and other winter annual weeds listed in the product label and pre-emergence control of crabgrass, goosegrass and other summer annual weeds listed in the product label. Application of this product to actively growing turfgrass or during green-up may cause unacceptable injury.

**Broadcast Application:** Apply 8 to 12 fl oz of this product per broadcast acre as a pre-emergence application.

#### SLOW MOVING OR QUIESCENT AQUATIC SITES

SureGuard SC is a contact herbicide that quickly degrades in water. Good coverage and contact time is essential. Make applications with sufficient volume of water according to the label. When making applications to floating or emergent weeds, apply at 6 to 12 fl oz/A and mix with an adjuvant approved for aquatic sites. For subsurface applications apply SureGuard SC at 200 to 400 ppb in the water column. Please see label for information on the effects of high pH on plant response and efficacy.

#### FAST AND SELECTIVE CONTROL OF TOUGH INVASIVE AND NUISANCE PLANTS

Trial Work, M. Belland, Aquatic Control Technology, 2012. Application Date: May 17, 2012.

Pond Location: Northwest Connecticut Target Plants: Curlyleaf pondweed (submersed) and filamentous, green algae (floating)

See label for complete directions for use.
