

Traction™

Get a Grip on Tough Diseases with Traction™.

Traction™ fungicide is a proven premix that helps golf course managers save time and stay in control of challenging diseases, including anthracnose, dollar spot, brown patch and snow mold. Traction fungicide combines FRAC 29 and FRAC 3 active ingredients supporting a strong disease resistance management program. Plus, by working on contact and systemically within the plant, Traction effectively controls 19 challenging turf diseases and algal scum. Traction delivers premium fungicide performance on every golf course area including fairways, greens, aprons and tees.

KEY PERFORMANCE BENEFITS

- Excellent summer fungicide helps promote healthy, high quality, dark green turf
- Strong performance against major turf diseases including anthracnose, dollar spot, brown patch and snow mold
- Broad spectrum – labeled for control of 19 diseases and algal scum
- Proprietary FRAC 29 + FRAC 3 combination that supports disease resistance management programs
- Versatile application for fairways, greens, aprons and tees
- Convenient premix formulation
- "Caution" signal word

ACTIVE INGR. fluazinam (17.0%),
tebuconazole (17.6%)

FORMULATION liquid (3.24 SC)

CHEM. FAMILY phenyl-pyridinamine, triazole

FRAC NO. 29 and 3

SIGNAL WORD caution

RESTRICTED no

PACKAGE SIZE 2 x 2.5 gal

IMPROVED TURF QUALITY AND COLOR

An Alabama Golf Course Cooperater laid down plywood prior to treating their Diamond Zoysia turfgrass with new Traction Fungicide.

THE RESULTS ARE IMPRESSIVE. The treated turf outside the four blue dots is darker, greener, and has overall improved turf quality appearance.

Diamond Zoysiagrass | Alabama Golf Course | 2017
1 Application, 1.3 fl oz/1000 sq ft

Grow a better tomorrow.

Traction™

KEY USES

Cool- and warm-season golf course turf
(greens, tees, fairways, aprons, rough)

KEY DISEASES CONTROLLED

(See product label for complete list)

Anthracnose
Brown blight
Brown patch
Brown ring patch (*Waitea*)
Copper spot
Dollar spot
Fusarium patch
Gray leaf spot
Gray snow mold
Large patch
Leaf spot (*melting-out*)
Pink patch
Pink snow mold
Powdery mildew
Red thread
Stem rust
Stripe smut
Waitea patch
Zoysia patch
Algal scum*

*Suppression

USE SUMMARY

Traction™ is a broad spectrum fungicide labeled for the control of turfgrass diseases on golf courses. This product may be applied with all types of spray equipment normally used for ground applications on golf courses. Apply this product in sufficient water to obtain adequate uniform coverage of the turf. Apply in a minimum spray volume of 40 gal of water/A up to 132 gal of water/A. Thorough, uniform coverage is essential for optimum disease control.

DISEASES	RATE	APP. INTERVAL
Algal scum, anthracnose, brown blight, brown patch, copper spot, dollar spot, large patch, leaf spot (<i>melting-out</i>), pink patch, powdery mildew, red thread, stem rust, zoysia patch	1.3 fl oz/1000 sq ft	14 days
Brown ring patch (<i>Waitea</i>), Fusarium patch, gray leaf spot, stripe smut (<i>one application</i>)	1.3 fl oz/1000 sq ft	21 days
Gray snow mold, pink snow mold	1.3 fl oz/1000 sq ft	1-2 applications*

*Late fall, before snow cover

See label for complete directions for use.
