

26/36®

DUAL MODE OF ACTION FOR EFFECTIVE DISEASE CONTROL.

26/36® fungicide's proprietary formulation offers two modes of action and two plant movement strategies to increase disease control. 26/36 is tank-mix compatible with most commonly used pesticides and is an excellent partner in integrated disease management programs for effective control of key turf and ornamental diseases.

3336® DG LITE

PATENTED GRANULAR DISPERSING TECHNOLOGY.

3336® DG Lite is formulated with patented granular dispersing technology. Mixed with water, the particles quickly disperse enabling easier and more consistent application as well as better penetration into the plant root zone.

3336® F

TRUSTED AND PROVEN, 3336® F IS A FAVORITE FOR POWERFUL BROAD-SPECTRUM CONTROL.

3336® F is the must-have broad-spectrum fungicide. It controls disease through preventive and curative properties in ornamentals as well as both cool- and warm-season turf species. 3336 works through a systemic mode of action in the plant to tackle a wide range of diseases in many turf and ornamental settings.

AFFIRM™ WDG

COUNT ON THE PROVEN LEADER FOR CONTROL OF ANTHRACNOSE, RHIZOCTONIA, AND MORE.

Affirm™ WDG fungicide offers a unique mode of action to control many tough turf diseases such as brown patch and anthracnose while helping to mitigate disease resistance development. Affirm is a concentrated, easy-to-mix water-dispersible granule formulation and a proven leader for rapid curative control of selected diseases.

PINPOINT®

YOUR BEST CHOICE FOR DELAYING RESISTANCE AND MAXIMIZING YOUR DOLLAR SPOT PROGRAM.

Pinpoint® provides lawn care operators with an excellent fungicide rotation partner to optimize disease management stewardship. Pinpoint has been proven in university performance trials to deliver outstanding targeted control of dollar spot as well as brown patch management to help ensure lawns stay clean.

STRIDER™

THE PROVEN CHOICE FOR BROAD-SPECTRUM CONTROL.

Strider™ controls more than 40 turf and ornamental diseases through preventive and curative activity. This highly active fungicide provides reliable control of your most common lawn care diseases.

TOURNEY®

EXCEPTIONAL CONTROL FROM ONE OF THE MOST ACTIVE FUNGICIDES ON THE MARKET.

Tourney® fungicide delivers broad-spectrum disease control for exceptional turf quality and low environmental load. As one of the most active fungicides, it's the go-to solution for tough disease control, including anthracnose, brown patch, summer patch, take-all patch, fairy ring, dollar spot, gray leaf spot, snow mold and more.

GREENCARE FOR TROOPS
PROJECT EVERGREEN

**ONE NATION,
MADE GREENER.**

Growing a better tomorrow means stepping up to make a difference. At Nufarm, we develop quality plant solutions to protect your livelihood. And we serve as the title sponsor of GreenCare for Troops to support military families.

THANK YOU FOR MAKING
A DIFFERENCE, TOO.
