	2.5 gal Save 18%*	\$175.00	\$175.00

Delivery from December 2026.

OpteraPro DUO GC Insecticide delivers broad-spectrum insect control through a combination of contact and systemic activity, helping golf course superintendents and greenhouse/nursery growers protect turf and ornamental plants from a wide range of damaging pests. OpteraPro DUO GC is a Restricted Use Pesticide.

"By combining two proven active ingredients OpteraPro DUO GC gives managers added confidence when targeting both surface-feeding and soil-dwelling insects. In addition to controlling major harmful pests, it also helps eliminate nuisance insects including ants, fleas, ticks, earwigs, centipedes, crickets, mealybugs, and others". – Jeff Eldridge, Segment Lead
