	SPRING	SUMMER	FALL	
BROADLEAF WEEDS	Cool Season Turf • Fairways & rough	Millennium Ultra <sup>2</sup>	Change Up	
	Warm Season Turf • Bermudagrass • Zoysiagrass • Fairways & rough	Change Up	Southpaw <sup>®</sup> Sedges, Grasses & Broadleaf Weeds	
NUTSEDGE & GRASSY WEEDS	Surfactants: Use a non-ionic surfactant with Certainty, Celero and Southpaw; use MSO 0.5% v/v with Q-Ball.			
	Sedges	Certainty <sup>®</sup> Turf Herbicide Warm Season Turf Certainty specializes in emerged sedges and kyllinga species at the 3-8 leaf stage	OR	Celero <sup>®</sup> Cool Season & Warm Season Turf Apply Celero after nutsedge has reached the 3-leaf stage. Celero translocates down to the roots, controlling difficult sedges and kyllinga.
	Grasses	Allstar <sup>®</sup> Crabgrass, sedges & difficult broadleaf weeds	OR	Q-Ball <sup>®</sup>
NATURALIZED AREAS	Natural areas typically require one or two herbicide applications per year and mowing to about 4-6 inches in late fall.	PrimeTime <sup>®</sup> SurePower <sup>™</sup>	SurePower <sup>™</sup> Millennium Ultra <sup>2</sup> PrimeTime <sup>®</sup>	PrimeTime <sup>®</sup> SurePower <sup>™</sup> Millennium Ultra <sup>2</sup>
