PRAIRIE VERTE

Product	PRAIRIE VERTE – a foliar biostimulant for grassland and turf			
Active ingredient:	Vegetal actives extracted from various species of fresh plants (contains no nutrient content NPK)			
Formulation:	Soluble Concentrate (SL)			
MAPP number:	N/A			
Mode of Action:	Biostimulant – systemic phyto stimulatory effect that promotes photosynthesis and translocation, boosting regrowth of grass			
Pack size:	1 litre (treats 2 ha)			
Aquatic buffer zone	N/A			
Non-target Arthropod	N/A			
Benefits	<ul style="list-style-type: none"> • Physically compatible with all grassland herbicides • Increases grass density and growth following weed removal • Promotes sugar storage and plant tolerance to abiotic stresses • Improves nutritional quality of harvest • Improves livestock productivity from the grazing platform 			
RECOMMENDATIONS	Apply PRAIRIE VERTE in tank mix with grassland herbicides, avoiding need for separate application.			
Crops	Full dose	Total dose	No. of application	Latest time of application
Grassland	0.5 l/ha	N/A	-	See label of tank mix partner
Amenity grassland, Managed amenity turf	0.5 l/ha	N/A	-	See label of tank mix partner

Agronomy Solutions for agricultural grassland	THRUST 3.5 l/ha + PRAIRIE VERTE 0.5 l/ha <i>Control of Docks, Ragwort, thistles</i>
	PASTUREMASTER 3.5 l/ha + PRAIRIE VERTE 0.5 l/ha <i>Control of Buttercup, Ragwort, thistles</i>
	DEPITONE ULTRA 1.25 l/ha + TOMAHAWK 1.25 l/ha + PRAIRIE VERTE 0.5 l/ha <i>Control of Dandelion, buttercup, chickweed, seeding docks</i>
	AGRITOX 3.3 l/ha + PRAIRIE VERTE 0.5 l/ha <i>Control of Thistles and Soft Rush</i>
	NETTLEX 60 at 60 ml + PRAIRIE VERTE 25 ml in 10 litres water (treats 500 m²) <i>Knapsack spot treatment for nettles, docks, thistles, bramble, broom and gorse</i>
	PRAIRIE VERTE 0.5 l/ha is physically compatible any grassland herbicides

Notes	<p>Prairie Verte is a true biostimulant rather than a product containing nutrients (NPK). Prairie Verte is systemic and promotes both photosynthesis and translocation to the roots in all plants, this delivers improved dry matter yield in ryegrass (+12% in trials), also improved digestibility of grass (+18% total circulating sugars). Fully approved as a biostimulant by French regulatory authority.</p>	
Additional activity	<p>Crop tolerance to abiotic stress – e.g. drought, cold, herbicide scorch, etc. Trials in progress to evaluate improvements in overall levels of weed control when applied in tank mix with a herbicide partner.</p>	
Time of application	<p>April to end September – apply to stimulate swards when conditions are conducive to grass growth and apply with partner herbicides to actively growing weeds.</p>	
Wash-out procedure	<p>Wash out spray equipment thoroughly with water and detergent immediately after use.</p>	
Water Volume	Minimum water (at full dose)	Recommended water (label)
	-	200 litres of water per hectare
Best Use Advice	<p>Include with every herbicide treatment in grassland and turf for faster regrowth of grass following weed removal</p>	
Tank Mix	<p>Compatible with all major brands of grassland herbicides such as:</p> <ul style="list-style-type: none"> • PASTUREMASTER, POLO, LUPO (MCPA+2,4-D) • THRUST, MAGNETO (2,4-D + dicamba) • AGRITOX, EASEL, LARKE (MCPA) • TOMAHAWK (fluroxypyr) • DEPITONE ULTRA (2,4-D ester) • NETTLEX 60 (triclopyr + clopyralid) • TURFMASTER (mecoprop-P + MCPA + dicamba) <p>Information on tank-mixing (physical compatibility) is available at Tank Mix - Nufarm UK</p>	
Grazing Interval	<p>N/A – revert to label of tank mix partner</p>	
Cutting Interval	<p>3-4 weeks – advisory to allow full translocation of partner herbicide</p>	
Overseeding Interval	<p>N/A – revert to label of tank mix partner</p>	
Clover Safety (Yes or No)	<p>Yes (when applied alone or with clover-safe herbicide)</p>	
Handheld Applicator (Yes or No)	<p>Yes</p> <ul style="list-style-type: none"> • 25 ml PRAIRIE VERTE in 10 litres of water treats 500 m² (for sprayers calibrated to deliver 200 l/ha water volume) 	
Following Crop Information	<p>N/A – revert to label of tank mix partner</p>	

Use plant protection products safely. Always read the label and product information before use. For label and safety information, please refer to the Nufarm website: www.nufarm.com/uk
