

## Safeguard your Winter crops' potential with LECTOR<sup>®</sup>

Weather and sowing conditions have been favourable in recent weeks with a lot of Winter Cereal planting completed across the country. Although recent weeks have seen more rainfall, earlier ground conditions have been excellent, and crops are now emerging and establishing quickly with above-average soil temperatures.

Now is a good time to plan effective post-emergence weed control in established Winter Cereals – an essential management tool to protect future yield and prevent weed seed return. Successful weed control depends on choosing the correct approved selective herbicide for use on your Winter crops.

### Control economically damaging broadleaf weeds

**LECTOR** is a selective herbicide formulation of **florasulam** which gives excellent control of problem weeds including **Volunteer Beans & OSR, Cleavers, Chickweed, Shepherd's Purse, Mayweeds, Vetches & many other Broadleaf Weeds** in Winter Cereals.

**LECTOR** has a number of advantages over alternatives:

- ✓ Extensive BLW spectrum including **Volunteer Beans**
- ✓ **Spring top-up permitted**, up to a max total dose 150 ml/ha (which delivers 7.5 g/ha florasulam)
- ✓ Excellent weed control, even in **cooler conditions**
- ✓ **Excellent tank-mixability with aphicides such as CARNADINE**, residual herbicides & trace elements, incl. manganese, copper, zinc. See compatibility info on website or **search "Nufarm Arable App"**

**Nufarm's Agronomy Solution**  
for post-em BLW control in autumn

 **LECTOR<sup>®</sup> 50-75 ml/ha**

- **Apply from 3 leaf stage of crop**
- **Max 75 ml/ha before 1<sup>st</sup> Feb** (delivers 3.75 g/ha florasulam)
- **Max total 150 ml/ha up to GS 39** (total 7.5 g/ha florasulam/crop)

### Key facts LECTOR<sup>®</sup>

- 50 g/l florasulam
- Active in low temperatures
- Flexible & wide application window from early Autumn to Spring in Winter & Spring Barley, Oats, Wheat & Winter Rye & Triticale
- Apply up to 75 ml/ha in autumn
- Allows for further florasulam applications in Spring (up to GS 39)
- Good rainfastness
- Excellent tank mix flexibility
