

Elliptica™

Powerful Insect Control and Improved Plant Health

Elliptica™, a seed treatment insecticide from Nufarm gives growers a powerful, broad-spectrum tool for protection against early-season sucking, chewing, and other soil pest. Thiamethoxam is a systemic active ingredient that moves throughout the plant and stops pest from feeding within hours of consumption.

In field trial research, the active ingredient thiamethoxam has consistently shown improved plant vigor and health, especially when conditions are less than perfect. Elliptica is a powerful choice for growers across more than 50 crops.

Elliptica is a flowable seed treatment containing 5 pounds thiamethoxam per gallon.

COMPETITIVE ADVANTAGES

- Early season protection against insects
- Compatible with a broad range of standard seed treatments*
- Systemic active ingredient
- Demonstrated vigor effect and improved plant health
